PERFORMANCE OVERVIEW

How Your Site Performs by Category

Scored across 6 categories from 10 pages

Page Health HTTP status, console errors, failed requests, and reliability	98	A Excellent
Page Speed First Contentful Paint, Largest Contentful Paint, TTFB, and Total Blocking Time	86	B Good
Resource Efficiency Speed Index (desktop + mobile) and mobile vs desktop rendering efficiency	77	B Good
Mobile Experience Responsiveness across mobile, tablet, and desktop viewports	100	A Excellent
Navigation & Links Broken links, anchor integrity, and navigation health	100	A Excellent
Layout & UX Header, footer, logo, CTAs, and page structure completeness	94	A Excellent

QUICK WINS

Growth Opportunities Identified

01 Reduce JavaScript blocking time (TBT up to 20.08s) — heavy JS is delaying interactivity on 10 pages.

02 Improve mobile performance (score as low as 0/100) on 1 page — mobile users are seeing much slower experiences than desktop.

03 Fix failed network requests — up to 10 failures per page across 1 page.

DETAILED ANALYSIS

Pages Needing Most Attention

Pages 1–3 of 6 (lowest scoring) — sorted by lowest score from 10 total pages audited

PAGE 01 /enterprise

79

HTTP 200 | FCP 0.62s | TTFB 0.14s | Mobile: Fully Responsive | All Links Working | 228 links | 1 CTA(s)

FINDINGS

- High Total Blocking Time — desktop TBT 20.08s. Heavy JavaScript is blocking interaction.
- Excellent first paint — desktop FCP 0.62s.
- Good LCP — desktop 2.00s.
- Stable layout — CLS 0.000.
- Desktop PSI score: 51/100, mobile: 35/100.

+ 2 more

OPPORTUNITIES

→ Fix high tbt (20078).

PAGE 02 /

85

HTTP 200 | FCP 0.64s | TTFB 0.06s | Mobile: Fully Responsive | All Links Working | 138 links | 6 CTA(s)

FINDINGS

- High Total Blocking Time — desktop TBT 0.98s. Heavy JavaScript is blocking interaction.
- 1 significant console error(s) detected.
- 10 failed network request(s).
- Excellent first paint — desktop FCP 0.64s.
- Good LCP — desktop 1.56s.

+ 4 more

OPPORTUNITIES

→ Fix 10 failed network requests causing errors.

→ Fix high tbt (980).

PAGE 03 /contact/sales

90

HTTP 200 | FCP 0.55s | TTFB 0.08s | Mobile: Fully Responsive | All Links Working | 11 links | 1 form(s) | 4 CTA(s)

FINDINGS

- Large mobile performance gap — desktop 80/100 vs mobile 0/100. Mobile users have a significantly worse experience.
- TBT 0.44s — some JS blocking detected.
- Excellent first paint — desktop FCP 0.55s.
- Good LCP — desktop 0.58s.
- Stable layout — CLS 0.002.

+ 2 more

OPPORTUNITIES

→ Fix mobile perf (0).

→ Fix high tbt (442).
